# TESTIMONIALS

Mathew Park

***"I have the BioBot. It kicks out master stuff."***

After getting the BioBot, I not only gained a Robot, I gained a friend. I love the "Rob Sugama" module. The way that it hops and hips is strangely hypnotic. I can't wait for the "RealBioBot".

***"Once you come to know the unique joys of a robotic friend, you can never go back to boring old human companionship"***

Wait, you're not going to print my real name, are you!?"

***"I especially enjoy some of the more adult options"***

Jonny Jo-Jo Shabadoo

***"The BioBot comes with a great hair pick attachment."***

Rob Boyd

Buying the BioBot was the best thing I could have done. All I have to do is turn his knob to "Vain Mode" and presto I have a great new hair-do. If it wasn't for B.B. I would never have all of the girls I do today.
